

Navigating to eIRB and starting a New Study Application

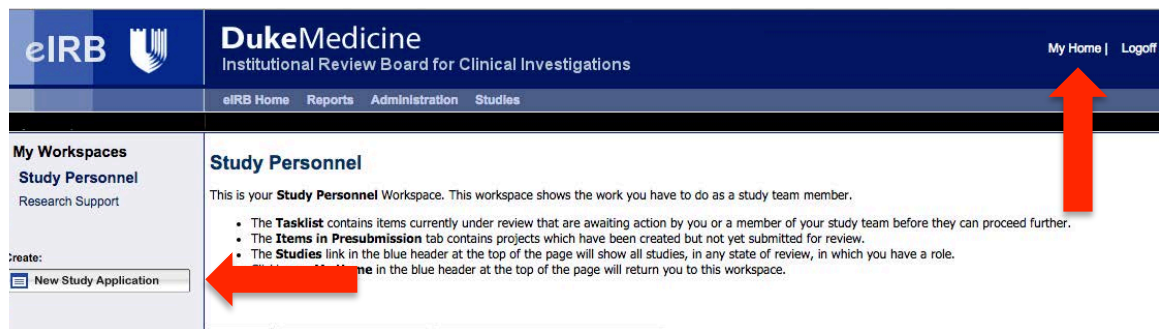

To access the eIRB system, use the following link:

<https://eirb.mc.duke.edu/eirb>

Log in with your NetID and password.

Click on “My Home” in the top right corner of the screen.

On the left side panel, make sure you are in your “Study Personnel” workspace and click on “New Study Application” to begin.

The screenshot displays the eIRB system interface. At the top, there is a dark blue header with the eIRB logo on the left, the DukeMedicine logo and text 'Institutional Review Board for Clinical Investigations' in the center, and 'My Home | Logoff' on the right. Below the header is a navigation bar with links for 'eIRB Home', 'Reports', 'Administration', and 'Studies'. The main content area is divided into two columns. The left column, titled 'My Workspaces', lists 'Study Personnel' (Research Support) and 'create:' with a 'New Study Application' button. The right column, titled 'Study Personnel', contains a description of the workspace and a bulleted list of features: 'The Tasklist contains items currently under review that are awaiting action by you or a member of your study team before they can proceed further.', 'The Items in Presubmission tab contains projects which have been created but not yet submitted for review.', and 'The Studies link in the blue header at the top of the page will show all studies, in any state of review, in which you have a role.' Two red arrows are overlaid on the image: one pointing to the 'My Home' link in the top right header, and another pointing to the 'New Study Application' button in the left sidebar.
