

Section 06: Research Summary & Abstract

Please use the **DUHS Research Summary Template** to ensure completeness and streamline review. The summary should not exceed 4 pages in length or use font size smaller than 12 pt. In addition, make sure to include a **version date in the document footer** to help track changes during the review process.

Research Summary Template:

<https://irb.duhs.duke.edu/forms/duhs-research-summary-instructions-and-template-generic-required-template>

The **Research Abstract** should summarize the main points of your study in one paragraph. The following guidelines may help you:

1. Purpose and objective (1-2 sentences)
2. Study activities and population group (2-4 sentences)
3. Data analysis and risk/safety issues (1-2 sentences)

06. Research Summary & Abstract

The Research Summary should include sufficient information for evaluation of the proposed study, independent of information considered important for review by the IRB.
